

# Endorsement Ink and Dirt Will Cause Poor Check Scan Images.

Check Scanners need to be cleaned regularly to remove ink, dirt and other pollutants from causing scan errors.

### **Waffletechnology Check Scanner Cleaning Cards**

are designed to clean scanner optics, pathways, belts and rollers through a random waffle placement across the card. They are designed with the equipment manufacturer for optimal cleaning performance.

Available in boxes of 15 cleaning cards.

**Price \$25.35/box**

### **EZ Check Scanner Cleaning Cards**

are designed to clean check pathways and check transport belts and rollers in a variety of check scanner models.

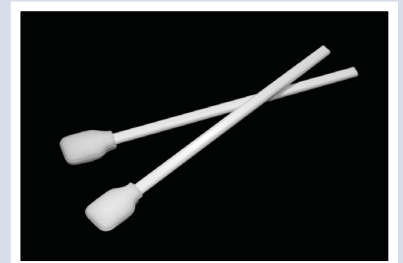

Available in boxes of 25 cleaning cards.

**Price \$32.17/box**

### **Multi-Surface Clean Swabs**

are complimented with our proprietary Wonder Solvent, ideal at removing inks from hard surfaces. This solution is also ideal at removing other debris. When used they will clean glass and sensitive optics, hard plastic and other surfaces and print heads, transport belts and rollers.

Available in boxes of 50 clean swabs.

**Price \$37.67/box**
