

# Scanner Lenses Clouded with Dirt and Endorsement Ink Residue?

*Eliminate dirt and ink buildup with a  
Panini-approved cleaning card from IFS!*

## How Waffletechnology Works

Waffletechnology is an advancement in cleaning card technology. The cleaning waffles are flexible, raised platforms which allow the card to thoroughly clean areas within the thermal printer. Now more contaminants and dirt particles are removed than ever before, leaving your check scanners cleaner and more reliable.

## Ideal Cleaning on Panini Vision X, My Vision X & I:Deal Check Scanners

Panini's check scanners will allow credit unions and their business members to take full advantage of the operational efficiencies and cost savings associated with this deposit application. IFS's check scanner cleaning cards with Waffletechnology are the approved products by Panini for use on these models. These products were created through a joint development between Panini and the engineers at Waffletechnology.
